

CROSS MY FINGERS

Intro: variations over D

D Em
Baby when I put my mind to it

D Em
I slip into another gear

D Em
And I travel in another syncopation

D Em
When all I wanna be is here with you - And

CHORUS:

Em D/F G
I'll be true to you cross my fingers

Em D/F G
I'll be good to you cross my fingers

Em D/F G
I'll be true to you cross my fingers

Sure as a snake along the river
Sure as a ghost is in the trees
There is a promise love delivers
Even though you never promised me

CHORUS

BRIDGE:

A A
I wanna stay, 'til my thoughts are okay

G B
'Til my motive is clear, 'cause I'm drifting away

A E
From the weight of your arms, from your soft feather bed

D G A
To a cold white line down the highway in my head

All our little tears are icicles
Hanging on the telephone lines
And I call you up through all the crackling static

I swear I only hear you half the time
No matter how I try to hold you baby
You only seem to slip away from me
And then we're walkin out along the ocean
Or swimmin like the dolphins out to sea

I'll be true to you cross my fingers
I'll be good to you cross my fingers
I'll be true to you cross my fingers
I'll be good to you cross my fingers

Cross my fingers
