

Old school

D G C
He's the old school he don't say
 D G D
When he's hurtin' he'll just hide away
 G C
Til it's over and tears are dry
C D G D
He's the old school so you can't see him cry

He was young once just like you
A heart wide open to love that was true
Thought he found it now she's gone
And he's the old school of love from now on

Just a student like us all
Learned a lesson by takin' a fall
Nothing new in this love game
And in the old school it's always the same

He's the old school he don't say
When he's hurtin' he'll just hide away
Until it's over and tears are dry
He's the old school so you can't see him cry
He's the old school so you can't see him cry
