G C  
I woke up twice in the middle of the night  
(/B /A ) G  
To ask what her name is and where she might live  
C  
To ask how many fingers she saw in this light  
(/B /A ) G  
To ask if she might know what gives

She said we rolled that Camaro like a cowboy cigarette  
Out on the highway in a puddle of beer  
That's just about how close to death you can get  
Til the only thing living is fear

G D/F# G  
Singing, oh darling, the faces were changed  
C (/B /A) G  
The names of the innocent, the story at five  
D/F# G  
Oh darling, the places get strange  
C (/B /A) G  
But only the song survives  
D/F# G ->Riff x2  
Ah ha

She said, now don't you remember they put a patch on your eye  
Like Dread Pirate Roberts, you looked so unplanned  
They cut off my wedding ring and you started to cry  
A one-eyed Niagara Falls man

I said, but I never married - I said with surprise  
And is this the diamond you said that you lost  
It was under my eyelids when they flushed out my eyes  
Hey, and I don't know what the tears cost

Singing, oh darling, ...

-Mandolin solo-

But I woke up sweating to breakfast in bed  
And there were my children, and there was my wife  
Post-traumatic stress, of just a bump on the head  
Or maybe the ride of my life

Singing, oh darling, the faces were changed  
The names of the innocent, the story at five  
Oh darling, the places get strange  
But only the song survives  
Singing, oh darling, the faces were changed

Oh darling, the places get strange  
But only the song survives
