She loves the jerk

Well, he was the guy always out on the make

I guess he had what it takes to turn the heads of pretty girls

She thought he would change; the worst of us will settle down

But he couldn't stay out of town, not even with this precious pearl

Now she lives with the lies and the bumps and the bruises...

He's a no-good so and so, but she'll never let him go
Though she knows it'll never work, she loves the jerk
She loves the jerk
