

## Something Broken

There's something [C]broken in my heart,  
Oh it was [F] nothing you done,  
There's something [C]broken in my heart,  
I guess that's [G]just the way it comes.

There's something [C] broken in my heart,  
Something I [F] just can't Fix,  
There's something [C]broken,  
Something [G]broken in my[C] heart.

I've tried every [C]powder and every pill,  
To put it back [F] together somehow,  
Rode high with the [C] fool up on the hill,  
Come down with the [G]draft horse and the plow.

I've been to the [C]land of milk and honey,  
And honey I'm [F]broke down now,  
There's something [C]broken,  
Something [G]broken in my [C] heart.

I'm gonna [F]go downtown tonight and find me a [C]woman,  
Try to [F]keep those jagged edges from my[G] mind,  
And if[F] I don't start a fight I'll Just keep on[C] running,  
'Til I[F] break on through [C]into the morning [G] light.

There's something[C] broken in my heart,  
Oh it was[F] nothing you done,  
There's something[C] broken in my heart,  
I know I'm [G]not the only one.

There's something[C] broken in my heart,  
Something [F]I can't fix,  
There's something[C] broken,  
Something[G] broken in my[C]Heart.
