

## Where nobody knows my name

G C G  
There's a town down the road where I ain't been before  
C D  
Nobody knows my name or what I'm lookin for  
G C G  
Maybe things will be a little different cause they can't stay the same  
C D G  
I'm gonna ease on down the road where nobody knows my name.

C G  
When the burnin sun surrenders, will they (she) still remember me?  
C A D  
I never told them (her) I was goin out where the wind is blowing free.  
G C G  
If they think about me tonight I know they won't miss the pain,  
C D G  
Cause I'll be takin it down the road where nobody knows my name.  
C D G  
I'll be takin it down the road where nobody knows my name.  
C D G  
Cause I'll be takin it down the road where nobody knows my name.
