

## FAR AS WE GO

|Bm C |G D | x2

Bm C G D

Broken love out on the highway

Bm C G D

I thought I knew you like the back of my hand

Bm C G D

Pick him up, he's just a ghost from the old days

Em C G D

That's just about as far as we go from here

Em C G D

That's just about as far as we go

He wants a ride out of Montana

Back to the girl with the West in her eyes

Before the wagons rolled out of Indiana

That's just about as far as we go from here

That's just about as far as we go

That's just about as far as we go from here

That's just about as far as we go

C

And you and I know

D (/E /F#) G D C

That this road don't go back there anymore

G C

Just let him rest

D Em C G D

He's the best of you and me

Em C G D

Just let him be

<Solo> |Em C |G D | x2

I never knew so much time was passing  
And who'd have thought we'd be haunted by dreams  
Dreams of love so true and everlasting  
That's just about as far as we go from here  
That's just about as far as we go  
That's just about as far as we go from here  
That's just about as far as we go

|Em C |G D | x8

.....

There really isn't much guitar on this song - John plays it on electric piano with Hammond accompaniment. However, there is a gorgeous understated solo, played on what sounds like a strat or a tele with loads of reverb
